Summary

Full Stack Developer with **1+ year of experience** building scalable software and e-commerce platforms using **React.js**, **Next.js**, **TypeScript**, and **Node.js**. Delivered **2 production-grade applications** featuring real-time systems, Role-Based Access Control, and multi-tenant architecture. Strong focus on performance optimization, clean code, and agile development workflows.

Technical Skills

Languages: TypeScript, JavaScript, Java
Frontend: React.js, Next.js, Redux Toolkit, React Query, Tailwind CSS, HTML5, CSS3, Axios
Backend: Node.js, Express.js, Spring Boot, Spring Security, RESTful APIs, JWT Authentication, Server-Sent Events
Databases: PostgreSQL, MySQL, MongoDB
Tools: Git, GitHub, Postman, Vercel, VS Code, npm, Linux
Concepts: Monorepo Architecture, Role-Based Access Control, Multi-tenant Systems, Agile, CI/CD, Internationalization

Work Experience

Full Stack Developer **Hanging Panda Pvt. Ltd.**
Full-time, Remote *August 2025 – June 2026*

E-Commerce Web Platform — Next.js, React.js, TypeScript, Node.js, Redux Toolkit, PostgreSQL, Firebase

- Designed and launched a full-stack multi-department e-commerce platform with **6 product categories**, customer storefront, and admin panel — released to production serving real users.
- Built responsive product listings with advanced filtering, sorting, and image zoom, improving user navigation across all **6 departments**.
- Established secure authentication using OTP, CAPTCHA, and JSON Web Tokens with interceptors for automatic session expiry and logout handling.
- Engineered Admin Panel with sales analytics dashboards and full CRUD for products, categories, and coupons with server-side pagination and filters.
- Implemented **4-stage** vendor onboarding, subscription management, payout tracking, and RBAC user management with Two-Factor Authentication.
- Integrated **5-language support** (English, Arabic, French, Hindi, Urdu) with RTL layout, dark/light theme, and dynamic API-driven sidebar.

Lead Management Software System — Monorepo, Next.js, TypeScript, Node.js, Firebase, PostgreSQL

- Architected a monorepo with **3 applications** (web app, admin panel, backend) and shared packages for types, utilities, and UI — reducing code duplication by **40%+**.
- Constructed lead management engine with full CRUD, **7+ search filters**, bulk CSV import and export, PDF generation, and configurable custom fields for multi-tenant companies.
- Configured real-time notification system using Server-Sent Events with automatic reconnect, enabling live dashboard updates for all staff with minimal latency.
- Strengthened security with granular Role-Based Access Control (per-module, per-action), proxy-token super-admin access, and Firebase push notifications across **3 user tiers**.

Key Achievements

- Released **2 production-grade applications** serving real users — independently built a real-time multi-tenant platform and a full e-commerce system within **1 year** of experience.
- Delivered **5-language internationalization** with RTL support and a monorepo architecture reducing cross-team code duplication by **40%+** across 3 applications.

Projects

Dog Sitter Web Application *Spring Boot, Spring Security, JWT, MySQL, MVC*

- Developed a full-stack MVC web application with role-based JWT authentication, Spring Security, location-based search, file upload, SQL pagination, and server-side rendering.

Education

Bachelor of Technology in Computer Science and Engineering *2020 – 2024*
Motihari College of Engineering, Bihar Engineering University, Patna **GPA: 7.56 / 10.0**

Certifications and Training

- QSpiders** – 6-Month Full Stack Web Development Training: Core Java, Spring Boot, HTML5, CSS3, JavaScript, React.js, Node.js, MySQL (2022)
- NPTEL** – The Joy of Computing using Python, IIT Kharagpur, Elite Certificate (8 Weeks)
- NPTEL** – C Programming Language, IIT Kharagpur (8 Weeks)
